Certified NextGen EHR Services
Take Your NextGen Systems to the Next Level

NEXTGEN HEALTHCARE 5.8 8.3 Certified Upgrade, & Conversion Partner

NextGen EHR and PM Implementation
From the initial strategy definition to setup, customization, training, and go-live support, our team of experts will help you avoid pitfalls and reach the finish line. We have provided NextGen services for over 15 years – we will ensure that the implementation of your systems is Smarter, Faster and Easier.
NextGen EHR and PM Workflow Audits
We'll help you determine if you are using your NextGen systems in the most efficient way. With each upgrade new tools are offered and we will help you implement the ones that make the most sense for your clinic, making your system Smarter and Easier!
NextGen Upgrades
eMedApps is one of the longest-standing providers of certified NextGen upgrade and conversion services. Whether your clinic is a "vanilla" KBM user or has 31 flavors of customization, our team will make your upgrades Faster and Easier.

Application and HIT Support
As a NextGen EHR Certified Partner, our help desk is managed by a team of NextGen-certified professionals. Our team offers ongoing optimization, maintenance, management, upgrades, and comprehensive support for your software, hardware, and networks. We make supporting your systems Easier!

NextGen Template Customization
eMedApps has been providing custom template assistance for NextGen users since 2001. We have developed full sets of clinical templates and we can make simple changes for others. We will make your system Smarter and Easier for your clinicians to use.

These eMedApps products compliment our NextGen Professional Services and are designed to make your NextGen systems Smarter, Faster, and Easier.

EHR Operations Dashboard
We've made it easier for you to find things that have been overlooked, ensure visits are complete, and verify that your systems are being used properly. Look no further than our EHR Operations Dashboard for a complete view of your EHR system.

Automatic Care Guidelines
Would it help if Care Guidelines were automatically applied each night based on criteria in the patient's chart including Diagnosis Codes, Medications, and Lab Results? We have it now!

Custom Lab Template
Our Custom Lab Template gives users the ability to customize the ordering process to their individual preferences without the need for template editing.

CareFinity™ Business Continuity Solution
This flexible application gives you seamless access to all patient chart information, schedules, and allows you to document visits when your EHR is unavailable due to planned or unplanned application or network outages.
