

CCDA Management Solution for NextGen™ Ambulatory EHR/Share

Easily manage your incoming and outgoing CCDA's with our CCDA Management Solution for NextGen Share!

NextGen Share is great, and we've made it even better! You now have control over messages.

- View a summary of all incoming and outgoing NextGen Share messages without going to the patient chart
- Setup rules and select which NextGen Share messages are sent to the PAQ, etc.
- Create a streamlined workflow to meet physician needs
- Understand how many messages were sent long before they are visible through HQM
- Launch the Rosetta Holding Tank directly from the tool

CCDA Management
